Koki Wire - Corda - Outdoor

Pocci + Dondoli

An innovative version of Koki Wire, whose character is accentuated by the contrast between the woven rope finish - the protagonist of the seat - and the metal structure. Light, essential, and versatile, it fits harmoniously into both indoor and outdoor spaces, whether private or public.

Koki Wire - Corda - Outdoor

The supporting structure features a sled base and backrest made of steel rod. The seat is woven with high-tenacity polyester rope, 100% recyclable, capable of providing high resistance to weather conditions and solidity to light. The structure is powder-coated, suitable for outdoor use.

Koki Wire - Rope Chair
