Helsinki 30

Caronni + Bonanomi, 1995

The Helsinki 30 collection is conceived as a system of tables featuring a knock-down steel frame with a 30×30 mm section and die-cast joints: a technical solution that combines construction precision with flexibility of use. The essential design of the structure, visually slender, reveals a surprising solidity, resulting from the balance between carefully calibrated proportions and the quality of the materials. Helsinki 30 fits naturally even into small domestic settings, where visual lightness becomes a true design asset. The slim frame does not weigh down the space but complements it, allowing the environment to breathe while ensuring stability and long-lasting durability.

Helsinki 30

System of tables with a knock-down steel frame, 30×30 mm section, and die-cast joints. The structure is available in matte lacquered finishes or in the exclusive Desalto finishes. Tops come in glass, Fenix® laminate, stratified laminate, or ceramic.
