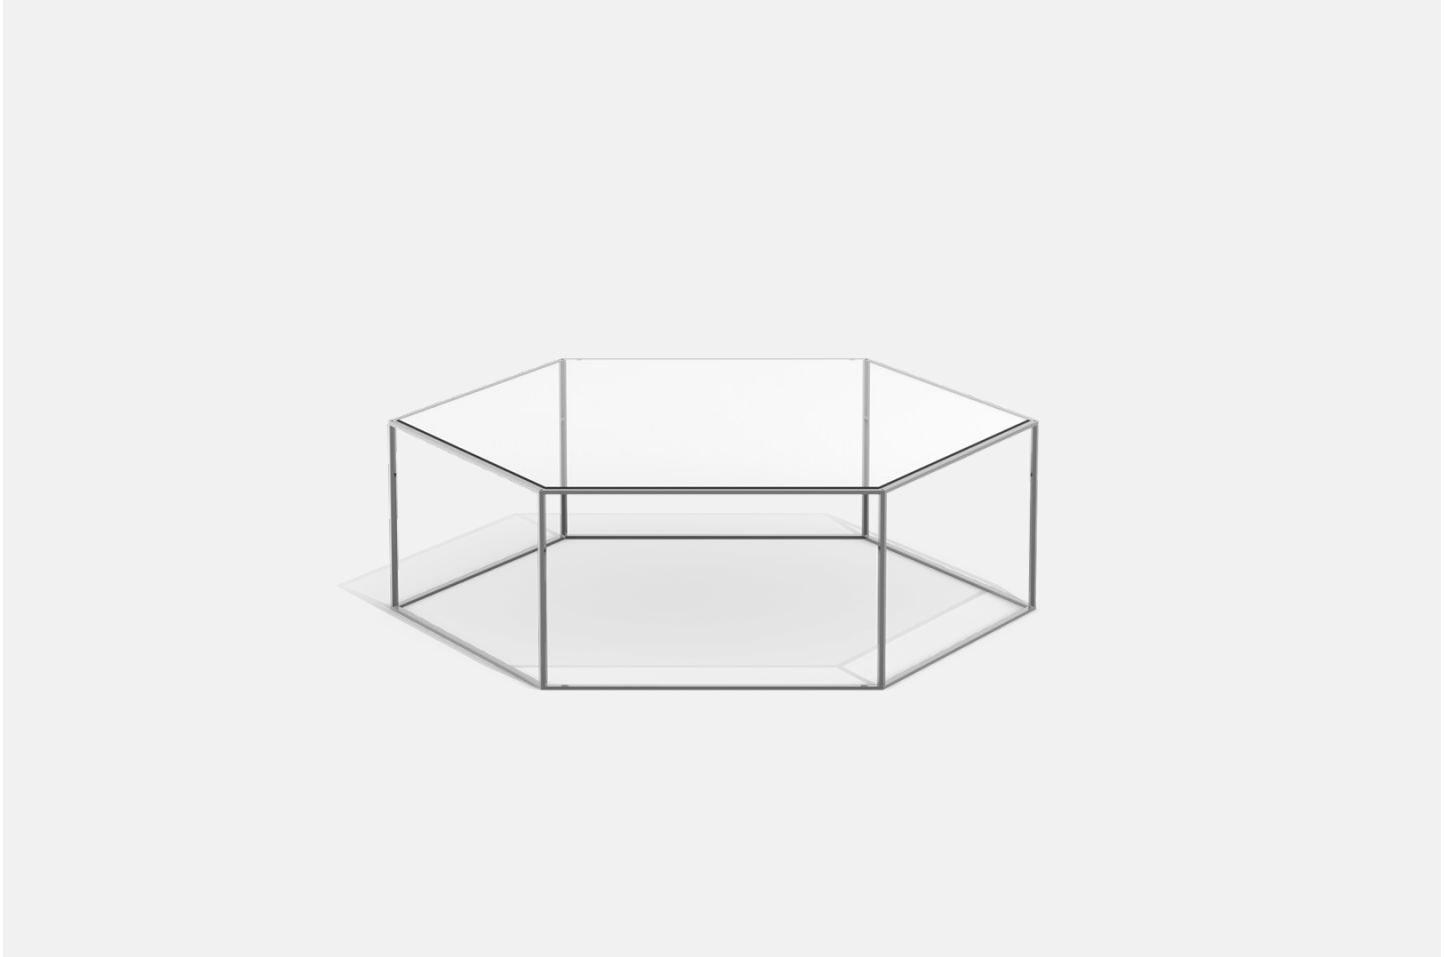
Hexagon

Tokujin Yoshioka, 2013

The Hexagon collection is born from the vision of Tokujin Yoshioka, a designer who has always explored the intersection of geometry, light, and nature. Inspired by the perfection of honeycomb lattices, he transforms a natural principle into a design language, creating a family of coffee tables where the hexagonal form becomes a distinctive mark and a guiding element for every composition. The collection offers various heights and dimensions, allowing combinations and overlaps that meet the diverse needs of both residential and contract spaces. With Hexagon, geometry is interpreted as a tool for perceptual lightness and spatial harmony, transforming a coffee table into an element of remarkable versatility.



Hexagon

Small table with disassembling steel frame, hexagonal shaped frame, bevelled glass top. Available also in the nest-inside version with bevelled glass or metal sheet top.
